

New Hire Brings Added Depth and Expertise

SCOR Global Life Americas is excited to announce Tom Britt as the newest member of the Group Reinsurance team. As Pricing Actuary for Group Life & Accident products, Tom will work closely with in-force clients, prospective clients and brokers to develop financial arrangements that meet client objectives for the transfer of risk at an efficient cost. Tom will also focus on R&D projects that reflect SCOR's unique capabilities and add value for SCOR Group Life & Accident clients.

Tom Britt, FSA
AVP, Pricing Actuary
tbritt@scor.com

Tom spent over 20 years with Nationwide Financial in Columbus, Ohio, where he held a variety of positions, including financial reporting and analysis for variable life products and strategic analysis for group products. Tom ultimately helped lead the pricing team for individual products, and co-pioneered Nationwide's highly successful entry into the corporate-owned life insurance (COLI) market.

Tom enjoys putting his deep understanding of the group and corporate markets to work structuring programs that accomplish client objectives and create win-win propositions. His pricing and actuarial experience and overall business acumen will be great assets to SCOR's Group Life and Accident clients.

Tom joins a team whose direct carrier experience is the deepest in the US group life and accident reinsurance industry. "The addition of Tom Britt has further positioned SCOR to deliver significant value to our reinsurance clients," said Brian Anderson, Vice President of Group Life and Accident at SCOR. "We look forward to working with our clients and brokers to help meet client growth and profitability goals."
