

New Hire Brings Added Underwriting Depth

SCOR is pleased to announce that Chad Christensen has joined the Group Reinsurance team as Vice President, Marketing Underwriter for Group Life & Accident products. Chad is responsible for new business development, managing relationships with clients and brokers, and providing value added underwriting services to our clients.

Chad Christensen
VP, Marketing Underwriter

Chad brings more than 15 years of experience in the group insurance industry to SCOR Group Life. Chad was Director of Group Life Underwriting at Voya, where he was responsible for underwriting and pricing larger cases. He also developed and executed renewal strategies and led the build out of the company's mid-market underwriting team.

Chad's background and record of producing consistently strong underwriting results at Voya across a wide spectrum of case sizes brings added expertise to SCOR's Group Life team. Along with his colleagues, Chad's direct market knowledge gives SCOR an unmatched ability to add value to our clients – through product knowledge, underwriting guideline reviews, operational assessments, best practice recommendations and ad hoc project work.

"Chad is a strong addition to our Group Life & Accident team", said Kelly Munger, Senior Vice President of Group Reinsurance at SCOR. "The team's combined tenure in the Group Life & Accident market has prepared them to deliver the best advice and services, adding significant value to help our reinsurance clients meet their growth and profit goals."
